Duel Duo Testing

TESTING

Button Functionality

1. Draw: draws 5 random bot cards.
2. Add to Duo: add a bot card to hand.
3. Remove from Duo: removes bot card from hand, adds back to choices.
4. Duel!: simulates a fight between the user's 2 cards and the computer's 2 cards.
5. See All Bots: displays all bot cards available as a list.
6. Play Again!: refreshes the page while maintaining a win/loss record.

Win/Loss Recording

1. Wins are tracked
2. Losses are tracked

RESULTS

Button Functionality

1. Draw: loads 5 random bot cards to the page.
2. Add to Duo: adds bot card to "Your Duo", removes from choices.
3. Remove from Duo: removes bot card from hand, returns to choices.
4. Duel!: simulates duel, shows user's hand next to computer's hand. Message begins, "Dueling!" then switches to "You Won!" or "You Lost!".
5. See All Bots: nothing happens, throws a 400 BAD REQUEST error in the console.
6. Play Again!: refreshes page, keeps W/L record.

Win/Loss Recording

1. Wins do not get counted, remain at 0. Wins are added to Losses.
2. Losses are counted, but increase with Wins as well.
